Lamps and Ballast

Today's lighting systems are more energy efficient and environmentally friendly than ever before. Nevertheless, hazardous materials, such as mercury, may be contained in lighting waste. Environmental regulations require this waste be managed properly. Failure to follow regulations could result in costly environmental liability and adverse publicity.

SUPPLY-098

SMALL 4FT FLUORESCENT LAMP RECYCLING BOX

DIMENSIONS: 6"x6"x48"

CAPACITY: 16 T12 or 39 T8 4ft straight lamps. DO NOT EXCEED the UN rated weight of 17 lbs. when placing 4ft T5 linear lamps into this container.

INCLUDES: UN-rated, DOT approved container, inner corrugated tube, 5.5 mil vapor barrier liner, liner tie, velcro closures, instructions, terms and conditions, proof of purchase, prepaid return shipping with label, recycling and online certificate of acceptance for recycling.

NOTES

Batteries

Every year, billions of used batteries that may contain corrosive materials such as potassium hydroxide (lye) or sulfuric acid; reactive metals such as lithium; or toxic metals such as mercury, lead, cadmium and nickel are thrown in the trash. Batteries can contaminate our environment if managed improperly.

Recycling batteries eliminates the risk of personal injury or loss of property and prevents pollution, thereby reducing the risk of future financial liability associated with improper disposal.

BATTERY
RECYCLING

SUPPLY-093

1/2 GAL DRY CELL BATTERY RECYCLING PAIL

DIMENSIONS: Top Dia: 6.15"; Bottom Dia: 5.49"; Height: 6.62"

CAPACITY: 15 lbs. of dry cell batteries, including AAA, AA, C, D, and 9 volt batteries containing alkaline, carbon-zinc, NICAD, NIMH, silver oxide, mercury, lithium metal, and lithium ion.

INCLUDES: UN-rated, DOT approved 1/2 gal container with locking lid, 4 mil poly liner, liner tie, instructions, terms and conditions, proof of purchase, prepaid return shipping with label, recycling and online certificate of acceptance for recycling.

NOTES: DOT limits on lithium content in battery and cell. All batteries must be taped to protect against short circuits. Must be placed into shipping box prior to return shipping. Bilingual- English and Spanish.

RESTRICTIONS: Lower 48 contiguous states only. Not for export.

Mercury Waste

Mercury has traditionally been used in medical apparatus, electrical devices, precision instruments and in conjunction with other elements to form compounds for industrial applications. Despite its widespread use, mercury is a highly toxic material that needs to be disposed of properly once it is removed from use.

Electronics

Electronic waste is one of the fastest growing waste streams globally. This has been spurred by increasing technological advances that drive the development of new products and the replacement of outdated equipment. The outdated equipment may contain toxic or hazardous materials, such as cadmium, lead, or mercury which can contaminate the environment if disposed of improperly.

Tritium Exit Signs

Tritium Exit signs must not be disposed of as normal trash. Damaged signs could contaminate the area and require expensive cleanup.

SUPPLY-334

TRITIUM EXIT SIGN DISPOSAL PER SIGN

DIMENSIONS: Packaging dimensions dependent upon number of signs.

CAPACITY: Capacity varies.

INCLUDES: ReturnPak box that meets the general package design requirements of 49 CFR 173.410 with attached return shipping label and UN2911 DOT label, bubble wrap, instructions, terms and conditions, a notification letter addressed to the appropriate state regulatory agency and a notification letter addressed to the US Nuclear Regulatory Commission (NRC), copies of completed tritium exit sign inventory form for your records and to send to the state and federal agencies.

NOTES: To properly dispose of a tritium exit sign, general licensees are required to transfer the sign to a specific licensee. The general licensee must file a report to the NRC and Agreement State within 30 days of disposal. The tritium exit sign kit supplies you will the proper packaging and paperwork to assist you with the proper disposal of your exit signs. Once your order is placed, Veolia will send you an informational packet that must be completed, signed and returned before your order is processed.

Aerosol Cans

Most aerosol cans are considered hazardous by Federal and state regulations due to inherent characteristics. If you generate waste aerosol cans, do not dispose of the can in the regular trash. Disposal in the regular trash can be a violation of the EPA/EPA hazardous waste regulations.

AEROSOL CAN
DISPOSAL

SUPPLY-339

VSQG 6 AEROSOL CAN RECYCLING BOX

DIMENSIONS: 9"x6"x10.25"

CAPACITY: Up to 6 used undamaged aerosol cans. Maximum return weight – 3 lbs.

INCLUDES: Corrugated box, 4 mil liner, liner tie, 12"x12" absorbent pad, limited quantity diamond label, instructions, terms and conditions, proof of purchase, generator certification form, return shipping, disposal and online certificate of acceptance for disposal

NOTES: Qualifying aerosols are defined as any non-refillable receptacle (can) containing a gas, the sole purpose of which is to expel a nonpoisonous liquid, paste, or powder, and fitted with a self-closing release device (nozzle). Aerosol cans must be undamaged and less than 1 liter and less than 10" in height. Approved for the shipment of non-hazardous wastes and only those hazardous wastes generated by very small quantity generators (VSQG).

RESTRICTIONS: Not available in AK, AR, CT, HI, MA, ME, MN, NH, NY, RI, VA, VT and PR. Not for export.

SUPPLY-340

VSQG 12 AEROSOL CAN RECYCLING BOX

DIMENSIONS: 12.25"x9"x10.25

CAPACITY: Up to 12 used undamaged aerosol cans. Maximum return weight – 6 lbs.

INCLUDES: Corrugated box, 4 mil liner, liner tie, 12x12 absorbent pad, limited quantity diamond label, instructions, terms and conditions, proof of purchase, generator certification form, return shipping, disposal and online certificate of acceptance for disposal.

NOTES: Qualifying aerosols are defined as any non-refillable receptacle (can) containing a gas, the sole purpose of which is to expel a nonpoisonous liquid, paste, or powder, and fitted with a self-closing release device (nozzle). Aerosol cans must be undamaged and less than 1 liter and less than 10" in height. Approved for the shipment of non-hazardous wastes and only those hazardous wastes generated by very small quantity generators (VSQG).

RESTRICTIONS: Not available in AK, AR, CT, HI, MA, ME, MN, NH, NY, RI, VA, VT and PR. Not for export.

AEROSOL CAN
DISPOSAL

SUPPLY-372

VSQG 24 AEROSOL CAN RECYCLING BOX

DIMENSIONS: 18"x18"x12"

CAPACITY: Up to 24 used undamaged aerosol cans. Maximum return weight – 15 lbs.

INCLUDES: ReturnPak box, 5.5 mil vapor barrier liner, liner tie, 12"x12" absorbent pad, limited quantity diamond label, instructions, terms and conditions, proof of purchase, generator certification form, return shipping, disposal and online certificate of acceptance for disposal.

RESTRICTIONS: Not available in AK, AR, CT, HI, MA, ME, MN, NH, NY, RI, VA, VT and PR. Not for export.

Smoke Detectors

Depending on where you live and what type of smoke detector you need to dispose of, there may be regulations that apply to the disposal of scrap detectors.

The two types of smoke detectors most commonly encountered in the United States are ionization detectors and photoelectric detectors. Ionization-type smoke detectors contain a small amount of radioactive material. Photoelectric-type smoke detectors do not contain any radioactive material. Combination smoke detectors, which contain both ionization and photoelectric smoke sensors, also contain a small amount of radioactive material.

SMOKE DETECTOR
DISPOSAL

SUPPLY-359

EXTRA SMALL SMOKE DETECTOR DISPOSAL BOX

DIMENSIONS: 8"x8"x8"

CAPACITY: Up to 6 intact exempt radioactive smoke detectors. Maximum return weight 3 lbs. Each smoke detector should contain less than or equaling 1 microcurie of Americium-241 (Am-241).

INCLUDES: ReturnPak box with attached return shipping label and UN2911 DOT label, poly liner, liner tie, instructions, terms and conditions, Smoke Detector Inventory Form to be completed and returned with filled ReturnPak box.

NOTES: Individually Shrink-Wrapped.

RESTRICTIONS: Lower 48 contiguous states only. Not for export.
